Proposed Algorithm for AAQAD Automatic Generator

For each article in SQUAD 2.0:

> If an Arabic version of this page exists:
>
> > Translate English paragraphs in SQUAD 2.0 using Google Translate
> >
> > Find matching translated paragraphs with the Arabic page
> >
> > For each matched paragraph in each article:
> >
> > > Save this paragraph (Arabic version from Arabic Wikipedia page)
> > >
> > > For each Question in SQUAD 2.0 on this paragraph:
> > >
> > > > Translate it with its answer(s) using Google Translate
> > > >
> > > > Save it with the corresponding paragraph in JSON format
>
> Else:
> > Abort this article (will be not included in AAQAD)
